Toutes les tensions sont continues, sauf celles suivies du signe ~.
 Toutes les tensions sont mesurées avec un appareil de 20 000 Ω/V, sans signal à l'entrée.
 Les tensions précédées du signe + sont mesurées par rapport à la masse.
 Les tensions indiquées par Δ sont mesurées par rapport à $G = +12V$.
 La tolérance est de 20 %.

Alle spanningen zijn gelijkspanningen, behalve deze gevolgd door ~.
 Alle spanningen zijn met een 20 000 Ω/V meetinstrument gemeten, zonder ingangssignaal.
 De spanningen voorafgegaan van het symbool + zijn gemeten ten opzichte van de massa.
 De spanningen gemerkt Δ zijn gemeten ten opzichte van $G = +12V$.
 De tolerantie is 20 %.

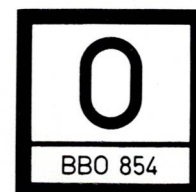

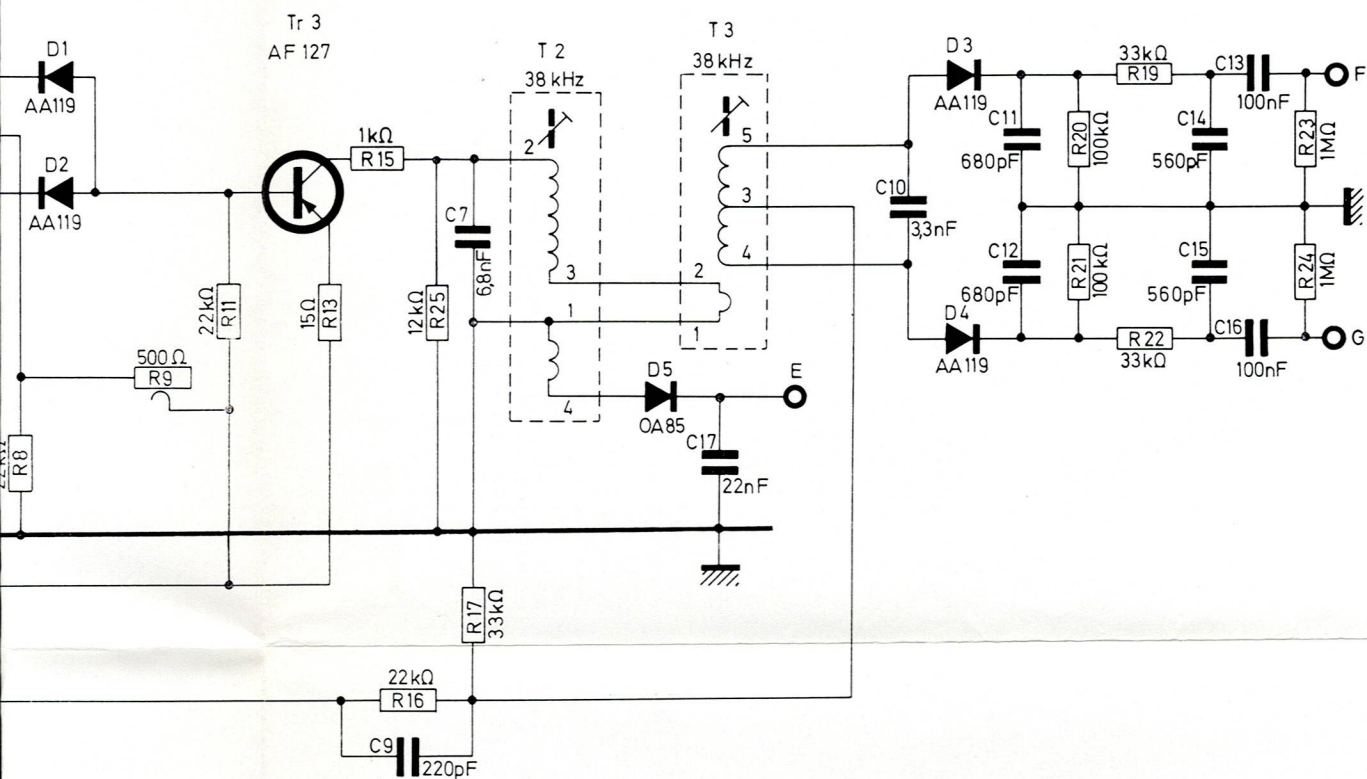

ve deze gevolgd door nu.

meetinstrument gemeten, zonder ingangssignaal.

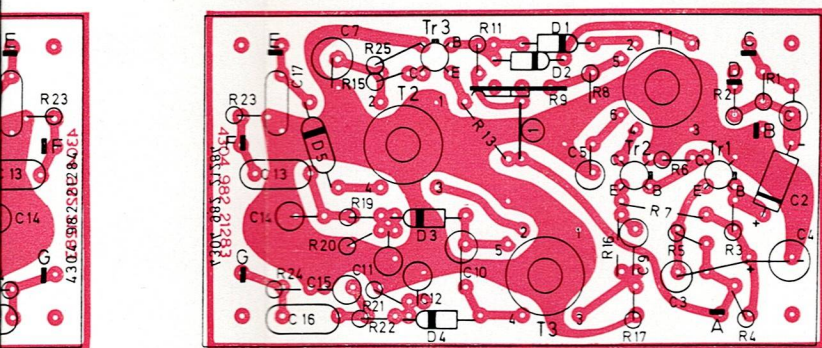

pool + zij gemeten ten opzichte van de massa.

ten opzichte van G = +12V
